Neurobiology and the literary imagination

2009-10-30 19:06:00

By Eugene Raikhel

This has been amply covered by the [New York Times](#) and [Mind Hacks](#), but it fits so nicely into the interests of many of our contributors and readers, that I couldn't resist mentioning it here: in the latest issue of n_1, Marco Roth has an excellent essay on "[The Rise of the Neuronovel](#)."
