Foreign Correspondents: Call for reviewers and books to be reviewed

2014-06-09 11:45:25

By Stephanie Lloyd

Over the past few years we've intermittently posted in a series called "Foreign Correspondents." The idea behind this series is to provide a forum for recent, important works that appear in languages other than English in the social sciences and humanities of medicine, health and science. If you would like to suggest a non-English language book for review or if you are interested in reviewing for "Foreign Correspondents," please contact Stephanie Lloyd (stephanie.lloyd@ant.ulaval.ca).
