2017-02-11 05:00:37

By Todd Meyers and Andrew Brandel

Andrew Brandel has organized an extraordinary and diverse set of commentaries on Nayanika Mookherjee's [\*The Spectral Wound: Sexual Violence, Public Memories, and the Bangladesh War of 1971\*](#) (Duke University Press, 2015). Each intervention is a path that moves outward from Mookherjee's remarkable study, finding ways through the brambles of memory and history. We hope you enjoy. — Todd Meyers, Associate Editor
